

Maruka USA

Unique Solutions

Position: Inside Sales Support

Type: Full-time

Pay: Salary plus benefits

Maruka USA, Inc is looking for a knowledgeable CNC machinist to work with our salesmen as a Technical Sales Engineer. This job would consist of working with our sales group by gathering information for CNC machine tool quoting, recommending machine models / options and making suggestions on how to process potential customers parts.

Skills required would be:

- Basic knowledge of machine tool platforms (lathes, HMC, VMC, ect)
- Machining and part processing
- Blueprint reading and part measurement practices
- Must have the ability to communicate well with customers and our sales group
- Some visits with our salesman would be required and minimal travel
- Basic computer skills working with Excel, Word and Power Point

This job does not require expert high end experience but does require the basic knowledge of CNC Machining and a good mechanical aptitude. Very good people skills and communication skills are required.
